Let's have a show down on that poll that shows 12 out of the 11 members of the Democratic Executive Committee opposed to a platform convention. It is up to you, Chairman Vansant.

A New York judge decided in a case in which a 15-year-old girl was brought into court for receiving the attentions of young men against her mother's wishes, that any girl was old enough to have beaux who wanted them.

If the committee refuses to call a state convention, how would it do for the Democrats who favor a platform convention to hold a series of district conventions and tell the people of Kentucky their views on party and personal platforms?

Recently a statement appeared in the press that Smith Center, Kan., was peopled largely with unmarried parsons and hundreds of letters have been written by persons who were anxious to marry. The council has instructed the city clerk to prepare a list of all single persons who are marriageable and mail it to any one on request, for a two cent stamp.

## More About Guthrie.

Mrs. A. C. Pettus, of San Antonio, Tex., daughter of W. F. Bibb, writes the Clarksville Leaf-Chronicle that her father now dead, founded Guthrie, Ky., in 1859 buying a farm covering the present site and building a hotel of which he was proprietor until after the war. When the railroad came he did not want the town named for him, but it was named for a railroad official. She says the Misses Grant in a hotel at Tate's station and afterwards moved to Guthrie. A Mr. Murray lived for a short time near the state line, who would be past 80 if now living.

## LIFE TERMS FOR CHAFIN AND WILSON

Bubber Chafin and Ernest Wilson Adjudged Guilty of Murdering J. M. Renshaw.

## VERDICT GIVEN YESTERDAY.

Jury Took The Case About 4:30 O'clock Tuesday Afternoon.

The Renshaw case was concluded at 4:30 o'clock Tuesday afternoon, when Commonwealth's Attorney Smith concluded a powerful plea for the conviction of Bubber Chafin and Ernest Wilson, the two negroes charged with the murder of John M. Renshaw Sept. 25, 1914. Upon the assembling of court yesterday morning at 8:30, the jury brought in a verdict, which had been arrived at over night. Both defendants were adjudged guilty as charged and given life sentences in the penitentiary. The only other alternatives under the court's instructions would have been death or acquittal.

## THE CASE ARGUED.

The argument in the case began Monday night, the night speeches being made by C. H. Bush for the defense and O. H. Anderson for the prosecution. The crowd that heard them packed the court room to the doors, many being unable to get in. Judge Hanbery made an order requiring every person entering the court room to be searched for weapons; no pistols were found but several retired without being searched. This was a precautionary measure, as the crowds have been orderly at all times, with no indications of an outbreak.

Tuesday morning's speeches were made in the following order: W. T. Fowler for the prosecution, G. W. Southall for the defense, County Attorney Ira D. Smith for the prosecution, John C. Duffy for the closing speech of the defense and Commonwealth's Attorney Denny P. Smith made the final argument for the state.

All the speeches were strong and able presentations of the case from the different points of view.

The evidence to the minutest detail was analyzed and summarized to the very best advantage. The jury was an unusually intelligent body of men and they listened patiently to the many hours of argument.

The general opinion was that a conviction was inevitable. Some expected a death sentence for Chafin, who was held to be the leader in the affair, with Wilson, a weaker tool, as his assistant.

Sheriff Jewell Smith, the young sheriff, has worked hard on the case from the very first and assisted by Edgar and Jarred Renshaw, sons of the murdered man, Ben Winfree, Tom Clark and Sol Fritz, has gathered a chain of evidence from which there was no escape. Though most of it was circumstantial, hardly a link was missing and the only way to escape a conclusion of guilt would have been to discredit the witnesses themselves, many of whom were colored. The jury evidently gave full credit to testimony given by colored witnesses against men of their own race.

Commonwealth Attorney Smith's closing speech was one of the best speeches he has ever made here. In fact all of the lawyers in the case excelled themselves and the trial will be recalled as a most important, hard-fought and memorable one.

## Clark Case Called.

## MEETING OF H. B. M. A.

Will Be Held Tomorrow Night, The First For Some Time.

## NEW SECRETARY IN CHARGE.

Members Will Get Busy And Start a Lively Spring Campaign.

The Hopkinsville Business Men's Association will hold a meeting tomorrow night, it being the time for a regular semi-monthly meeting. But few attempts to hold meetings have been made during the winter months, but now there is a general desire to get busy and "start something."

John W. Richards, the new secretary, took charge Monday and is busy today stirring up the members for the coming meeting. It is proposed to open up some new work for the spring campaign and make the H. B. M. A. the same potential factor in city affairs it has always been. Don't fail to make your arrangements to be on hand, if you are a member, and bring a new member with you.

## NEW TRACKS FOR L. & N. CO.

Land Purchased From Jackson and Ellis For 800 Feet of Sidings.

The L. & N. Railroad Company has bought a strip of ground extending from Fourteenth street to Twelfth street for the purpose of widening the tracks. Fred Jackson sold a strip 34 feet wide at the Fourteenth street end and the Ellis Ice & Coal Co. one 60 feet wide at Twelfth street. The city has been asked for permission to lay two additional tracks across 14th and 13th streets on the west side. The new tracks will give additional shipping facilities to the coal and ice business of the parties from whom the land was bought. There will be two new tracks about 400 feet in length.

## Professional Men Cited.

Summonses were served on five lawyers and three physicians, including the city physician, by the police to appear in the police court on charges of failing to pay their city licenses. The defendants are Attorney C. A. Wickliffe, E. T. Washburn, D. G. Park, W. M. Oliver and John G. Miller, Jr. The physicians are: Dr. W. T. Graves, city physician; Dr. H. T. Haessig and Dr. Leonard Champion.—Paducah Sun.

## Double Tragedy.

New York, March 24.—Howard Boocock, treasurer of the Astor Trust company, of this city, and prominent in New York society, shot and killed his wife Monday night as she was playing the piano for his entertainment in their home in East Seventy-fourth street. The banker then committed suicide with the same revolver.

## DESTINIES ARE UNITED

Mr. Malcolm Frankel and Miss Louise Moore Married Yesterday Morning.

## AT GRACE EPISCOPAL CHURCH

Left On The Noon Train For a Honeymoon Trip To Louisville and Chicago.

Mr. Malcolm David Frankel and Miss Louise Barker Moore were married yesterday morning at eleven o'clock in the rectory of Grace Episcopal church. In the absence of the rector, Rev. Geo. C. Abbott, the ceremony was performed by Rev. Louis Powell, of the Methodist Episcopal church.

Only a limited number of the relatives and close friends of the contracting parties were present. It had been planned to have the wedding take place last evening, but reservations could not be secured on the L. & N. train and at the last moment the marriage was solemnized at an earlier hour and the bridal couple left on the 12:05 train for Louisville via Princeton. After a short stay in Louisville they will proceed to Chicago for a bridal trip of a week or two.

The wedding party and other friends accompanied them to the Illinois Central depot where they were showered with rice as they boarded the train. Those at the church were Mrs. Upshur Woolbridge and Mrs. M. A. Mason, sisters of the bride; Misses Elizabeth Mason, Kathleen Carothers and Mary Brant Givens, of Paris, Ky.; Mr. and Mrs. Henry M. Frankel, parents of the groom; Mr. and Mrs. Edward Kleeman and Messrs. Sam Frankel, Charles Slaughter and Joseph Slaughter.

The groom is a prominent and highly esteemed young business man, connected with one of the city's largest mercantile establishments. His bride, an attractive and accomplished girl of the blonde type of beauty, tall and graceful, is the youngest daughter of the late Wm. S. Moore, one of the most prominent planters in South Christian.

The marriage is a happy culmination of an attachment that has lasted from the time the young couple first entered society a few seasons ago.

Upon their return home they will in a short while go to housekeeping in the Royalty cottage on South Virginia street.

## SLOGAN SIGN IN PLACE

Located On East Side of Peace Park After So Long a Time.

Objections to the placing of the Slogan sign "Greater Hopkinsville Wants You" on the Campbell street side of Peace Park were withdrawn by the Park Commissioners and the sign was yesterday erected on poles placed at the curb line. It is 45 feet long and is swung about 35 feet from the ground and when illuminated can be seen a long distance. The lights will probably be turned on to-night.

## Changes In Real Estate.

W. R. Stewart has sold his residence lot on Campbell street to W. E. Gray and is giving immediate possession. Mr. Stewart has finished the work of remodeling his new residence, the former Baptist parsonage, and moved into it yesterday.

## Quarterly Conference.

The second quarterly meeting of the Hopkinsville circuit will be held at Longview next Saturday, March 27. There will be preaching at 11 o'clock and quarterly conference will be held in the afternoon.

## RUSSIANS MOVE ON CRACOW

Will Take Fortress Near German Frontier in Month, Is Prediction.

## 120,000 MEN ARE CAPTURED.

Allies Repair Vessels to Renew Attack on Forts of Dardanelles.

London, March 24.—The size of the garrison at Przemysl and the number of men who surrendered to the Russians greatly exceed all estimates. According to Petrograd dispatches the garrison originally consisted of 170,000 men of whom 40,000 were killed. Nearly 120,000 surrendered when the fortress capitulated.

A blizzard, which has interfered with the telegraphic service, prevents details of the surrender from coming through, but Lemburg reports that for seven days prior to the fall of the fortress the people had nothing to eat and the Russians, who took in large supplies of provisions, were welcomed as liberators.

Dispatches from Lemburg also say that 15,000 persons were found suffering from typhus or cholera and that the work of disinfecting the place is being undertaken energetically. The interior forts, it is said, were found intact with a good deal of ammunition in them.

Everywhere in Europe, both in belligerent and neutral countries, the greatest credit is given the Austrians for their long and stubborn resistance, which has delayed and interfered with the Russian campaign in other directions.

Now that the Russians, whose numbers, like those of the Austrians, must have been greater than estimated, no longer are compelled to invest this fortress, a big movement either against Cracow or in the Carpathians doubtless will be started. With their northern lines protected by the morass into which the greater part of Poland is converted during the spring months, the Russians are expected to throw all their strength against the Austrians and attempt finally to crush them.

One British military critic stakes his reputation on the prophecy that Cracow will fall within a month, and that when it does, or before, Austria will endeavor to conclude a separate peace. He is more optimistic than most military critics here, who believe the Austrians and Germans will make a great effort in the southern field and attempt to prevent the Russians from crossing the Carpathians or reaching Cracow.

In the west there have been a few attacks and counter attacks, but nothing that in this war of big battles causes more than passing comments.

Unfavorable weather continues to cause a lull in the Dardanelles. The allies are taking advantage of this to effect repairs on vessels which suffered in the last bombardment.

Reports as to the effect of the big gun fire on the forts are contradictory, but one explanation of the fact that firing was continued from the land after the forts were presumably destroyed is that the Germans had brought down howitzers, which were moved from place to place on rails.

The Turks again have attacked the Suez canal. The guns of the forts opened Monday on a small force which crossed Sinai from Bir El Saha. The Turks, who numbered 1,000 and were accompanied by three German officers, retired for about eight miles, where they were attacked by a large force under General Younghusband, and, according to British official accounts were routed.

## Snowslide This Time.

Fifty miners were killed and as many more injured by a snowslide which swept away several houses at Howe Sound, B. C.

## Chitchat.

JAMES—According to a Marion dispatch, Senator Ollie James has not gone to Honolulu, although it was announced he would go this month. He is now at home. His mother has been very ill, but is improved somewhat at this time. After remaining with his mother for a short visit, Senator James will go to Paducah to look after some business interests.

BUSH—A complimentary notice of Judge Charlie Bush in the Mayfield Messenger has set the political gossips to discussing him as a possible candidate against Laurence Fian for Railroad Commissioner. Judge Bush is a railroad attorney and a good one at that. There is absolutely nothing in the Mayfield mare's nest. His position at the head of the Hopkinsville bar is worth more to him than a political office.

SOUTHALL—Gov. and Mrs. Ege gave a reception at the governor's mansion in Nashville that was a brilliant affair. Among the ladies who served frappe in the music room was Mrs. James Southall, Mrs. Rye's sister. Her husband is a Hopkinsville boy whose first "job" was in the Kentuckian office as a printer's devil. He is now a prosperous businessman of Nashville.

BIBLE—John Franklin Bible is indeed hard earned about going to Mississippi to live. He is back from a trip to Yazoo City, where he closed a trade for 830 acres of land near that place and will go the latter part of next week to live on his plantation. His purpose is to raise live stock and poultry in connection with farming on a large scale. The plantation has a fourteen-room mansion and eight or ten houses for tenants. Mr. Bible's friends expect to hear from him upon the upper rungs of the ladder, as soon as the Mississippi people find out what a ten-strike they have made in enticing him away from Kentucky.

YOUNGHUSBAND—Every now and then we stumble on a new name. Gen. Younghusband is one of the British officers fighting the Turks around the Suez canal. If the General doesn't mind, a curious public would like to know who tagged him in the first place?

GARY—George Gary has been on the verge of writing a spring poem for several days. His friends are watching him closely and hope the attack will blow over without the necessity of an operation.

PETERSON—The public is finding out by degrees that Prof. Walter S. Peterson is one of the liveliest wires who has hit Hopkinsville in many years. He came from so far south that snow was a curiosity to him, but he is rapidly becoming acclimated and is destined to become a typical Hopkinsville booster before his first year is up. By the way he turned down a \$3,000 offer from a down South college the other day and says the Kentucky asparagus bed is good enough for him. He is worrying the Trustees to death to make dormitory room for the 100 new girls he says he is sure to have at Bethel College next September.

## Fatal Auto Accident.

Mayfield, Ky., March 24.—Mrs. J. J. Giles was killed Monday night on College street in a collision between an automobile, in which she was driving, and a grocery wagon. A shaft of the vehicle pierced her breast, causing almost instant death. Mr. Giles is foreman of the weaving department of the Mayfield Woollen Mills and formerly lived in Louisville.

## To Be Married Tuesday.

Miss Posey Cullen, of Wheatcroft, Ky., who had been here for several days on a visit to Mrs. K. M. Fairleigh, left Tuesday for her home. Miss Cullen will be married next Tuesday, at her home, to Mr. Chas. S. Jenkins, a prominent young business man of Beebe, Ark. She is a graduate of Bethel College and was a teacher in the college last year.

## Where To Buy.

The Kentuckian for nearly forty years has been a recognized medium of communication between the enterprising merchants of Hopkinsville and the trade tributary to the city. At this season of the year the people do a great portion of their shopping and the advertising columns contain many special announcements from time to time. It is well to study these in order to tell where to buy. It makes a big difference in the family balance sheet at the end of the year, whether or not the purchases of the spring season are made carefully and thoughtfully. If you come to town haphazard, blunder into the first store you see, and buy the first article offered, without previous consideration, you are apt to regret it. The wise purchase is the one made after study of the announcements in the home newspaper. Examination of the advertising gives a clear idea as to what merchants are the most enterprising, and what special bargains are being offered just now. Pick out the men who bid the most actively and intelligently for your spring trade, visit their stores, and inspect their offerings, and you will find the chance for a selection that you won't regret.

## Seeing a Calf.

Rev. Chas. B. Mitchell, a Methodist divine in Chicago, attacked dancing in the cafes as immoral in its tendencies and the cafes employed a lawyer to defend them who quoted Scripture to justify the dancing. One of his quotations was where Moses came down from the mountain with the tablets of the law and the Bible says: "He saw the calf and the dancing." Bro. Mitchell was not knocked out by any means. He replied: "Moses was not the only one who has seen a calf at a dance." Which is no doubt quite true.

Out of 749 cases treated at the Radium Institute in London during the past year, 19 are described as cured, 54 as apparently cured and 328 improved. As to the rest, the results were not apparent at the time the report was prepared. The diseases treated ranged from cancer, in which the results were varying, to spring catarrh, of which even the severest cases were cured.

The Austrians surrendered 50,000 men, including nine generals, when the Galician stronghold of Przemyśl surrendered Monday. The victory gives Russia control of all Galicia and releases a big army for service elsewhere.

Billy Sunday says that dancing demeans the soul, while Mayor Mitchell, of New York, says it eases the soul. Our own experience has been that it elevates the spirits and fatigues the soles.—Russellville Times.

The Germans torpedoed another little British steamer, the Concord, in the channel Monday. The crew of 26 escaped to Dover, leaving the vessel afloat.

While Germany was sending Zepelins to Paris Sunday, the allies sent an aviator to Baden, who dropped three bombs, wounding three soldiers.

Kansas City claims in Frank Canata the champion spaghetti eater of the world. His record is five pounds in eighteen minutes.

Przemysl has at last been taken by the Russians and the first thing they ought to do is to change its name.

## TWO VICTIMS OF GREAT WAR

Permanently Crippled Boy and Woolly  
Pup Seem Out of Place in  
Ward of Hospital.

The following little cameo of life in the British hospital at Furnes appears in a report of Sir Frederick to the Red Cross society:

In the main ward—a fine hall—is a little boy in a bed very much too big for him. He is a refugee from Ypres. In one of the many attacks upon the unfortunate place his foot was smashed by a shell, and, as a result, the leg has had to be amputated. He is doing well. What has happened to his parents is not known. He is probably alone in the world. In a basket on the floor by the child's bed is another refugee from Ypres—a puppy of very indefinite breed. He was probably thrown by some compassionate soul into a cart which was flying in haste from the burning town. He is little more than a round woolly ball—woolly by reason of his extreme youth, and round as the result of persistent over-rationing.

It is a curious picture; the white-washed refectory full of gravely wounded men, some still groaning with pain, some nearing death, with, high upon the wall, a kindly statue of the Virgin looking down upon the scene, and, in the center of the room near the stove, the ridiculous puppy and the one-legged boy.

## SUGGESTED SLUMBER

"I see you pass a tin plate in your church now."

"Yes, sah. We used to pass a silk hat, sah, but it was too suggestive to the sleepy members, sah."

"What was suggestive about it?"

## BUT THEY DO?

Mrs. Bacon—I see it is stated that the average length of life rose from 21½ years in the sixteenth century to 40½ years in the nineteenth century.

Mr. Bacon—I suppose the latter time is when the women began telling the truth about their ages.

## THE MAN FOR THE PLACE.

"This American diplomat is accused of having promoted prize fights early in his career."

"Well, what of it? Wasn't he sent to a tropical country where the fighting is almost continuous?"

## Kansas Woman Helpless.

Lawrence, Kas.—Mrs. J. F. Stone, of this city, says, "My wife suffered for ten years from womanly troubles, during two years of which she was totally helpless. She was examined by many physicians, some who gave her up to die. Finally she began to take Cardui, and since then has greatly improved in health. The tonic, strengtheners, and restorative effects of Cardui, the woman's tonic on the womanly constitution, are the most valuable qualities of this most popular medicine. Cardui acts specifically on the womanly constitution. Half a century of success proves that Cardui will do all that is claimed for it. Try it for your trouble.—Advertisement."

## Coat of Fame.

Soon after victory had declared itself in favor of the British arms at the memorable battle of Blenheim the Duke of Marlborough, in traversing the ranks, observed a soldier leaning in a pensive manner on the butt-end of his musket. His grace immediately accosted him thus: "Why so pensive, my friend, after so glorious a victory?" "It may be glorious," replied the son of Mars, "but I have only earned fourpence by contributing to all this acquisition of fame!"

## NOT THE GIFT OF JOHN MUIR

California Redwood Forest Was Donated to Nation by Former Resident of Chicago.

California numbers among its many show places a redwood forest known as Muir woods, in honor of John Muir, who died recently. The place is a national park, owned by the United States government. Credit for this circumstance was ascribed to the late naturalist in many of the accounts of his life and death.

This, it seems, is a mistake. As admirers of his have made plain in letters to newspapers, the man who bought the forest and presented it to the government in 1908 was Mr. William Kent of Kentfield, Cal., former Chicagoan, banker, dealer in lands and live stock, civic worker and at present member of the national house of representatives for the Second district of California. Theodore Roosevelt, then president, is said to have urged that the tract be called Kent park, while the donor insisted on the present title, declining to "stencil his name on a benefaction." It is asserted further that except for the timely act of Mr. Kent the forest would have been cleared away by a public utility corporation and probably not one of the giant trees in it would now be standing.

## CHECKS WORK OF THIEVES

Simple Bicycle Lock Used in France Said to Be One of the Best Yet Devised.

An excellent method for locking bicycles to prevent them from being stolen is used in France, and it is one of the easiest to fit on by a clever amateur. The device is applied to that part of the frame where the front fork joins the main or upper horizontal tube of the frame. On the head of the fork is placed a stout collar, riveted on to prevent turning, the collar having a projecting wing at the back so that this projects over the horizontal bar. On the bar itself is placed a second collar having a vertical projection which is pivoted to the collar. The combination makes one fixed and one movable wing which can be brought together, and a padlock is passed through holes in each. The trick of the device is that the first wing lies at a slight angle, due to the mounting of the collar, so that when locked, the front wheel no longer lies straight, but somewhat inclined, and in this way it is impossible to ride the machine.—Scientific American.

## IN A POLITICAL SENSE.

"Why," exclaimed the angry officeholder, "the first thing we know, you reformers won't allow a fellow to drink coffee!"

"There is already a movement on foot to prevent you from having a second cup," said the reformer, quietly.

## OF COURSE NOT.

"I have a piano that I got with soap wrappers. Would you like to see it?"

"I don't mind. No injury can be done to the auditory nerve by merely looking at such a piano."

## COP'S SUGGESTION.

Woman (separated from husband in crowd)—I'm looking for a small man with one eye.

Policeman—If he's a very small man, maybe you'd better use both eyes.

## A MYSTERY.

"It's always been a puzzle to me."

"What has?"

"Where the man who first said that two could live as cheap as one got his idea."

## LIKES TO LINGER.

"Plodson's manners are very deceptive."

"Indeed they are. Just when you think he's going he settles down for another hour."

## LAW AND LOVE.

"I understand he won her by quotations from Mrs. Browning's sonnets."

"She got her divorce by quotations from the statutes."

## NATIVE ADVANTAGE.

"That little Irish girl fairly floats when she dances."

### Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom. Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

### The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporary history, which Prof. Duruy completes in brilliant manner. In the story of the past lie the secrets of today. And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos—and the Review of Reviews will do it for you.

### Get the REVIEW OF REVIEWS for a Year

Send the coupon only. It brings the whole set—four volumes—charges prepaid—absolutely free. All we ask is that—after you get the books and like them—you send 25 cents for shipping and \$1.00 a month for three months to pay for the Review of Reviews. If the books aren't worth more than you pay for books and magazine to get, send them back at our expense. But be prompt. The world-wide fame of Duruy will make these 5.00 sets disappear from our stock room at once. Send your coupon today—and be in time.

### Unusual Offer To Our Readers.

For a limited time, and subject to withdrawal after 30 days, the well-known publishing house of the J. B. Lippincott Company, Philadelphia, founded in 1792, offers to the readers of this paper a 12 months' subscription to "Lippincott's Magazine" and a year's subscription to the Kentuckian, both for \$3.00. This is the price of a twelve months' subscription to "Lippincott's" alone. Additional to obtaining every issue of this paper for a year, our readers will receive in "Lippincott's," 12 great complete novels by popular authors, 105 short stories, crisp, entertaining, original 45 timely articles from the pens of masters, and each month some excellent poems with the right sentiment, and "Walnuts and Wine," the most popular humor section in America. To obtain this extraordinary offer prompt action is necessary. Remit to J. B. Lippincott Company, Washington Square, Phila., Pa. advertisement.

### TOO READY WITH SARCASM

Tom Reed, Brilliant as He Was, Made Enemies by His Biting Comments on Public Men.

"If the late Tom Reed of Maine had lacked the gift of sarcasm, he no doubt would have attained the goal of his ambition—the presidency—but he had that fatal faculty in abundance," said former Representative Rusk, at the Raleigh in Washington. "It was impossible for Reed to refrain from directing his shafts of irony at members of the house or others when occasion arose. His thrust at former Representative McMillin of Tennessee, now minister to Peru, will cling to that gentleman as long as he lives. It was to me that he said on one occasion when McMillin was speaking: 'McMillin never opens his mouth in a public speech that he doesn't subtract from the sum of human knowledge.'"

"On another occasion I walked to the capitol with Mr. Reed—he was not speaker then. It was in the administration of Mr. Harrison, and I asked the Maine man how he was getting on with the administration."

"I can better illustrate that than to attempt to describe my relations with the administration," said Reed. "I think I have only two enemies in the whole state of Maine—one of 'em the president has made the collector of the port at Portland, and the other he recently pardoned out of the penitentiary."

### LOST LIFE ASSISTING FOE

British Officer Gained Applause From Enemy for His Brave and Self-Sacrificing Act.

One of the most dramatic stories of battlefield heroism concerns a British officer who, noticing a wounded German whom the enemy had left behind during a sudden retirement, ordered his own men to cease fire, while he himself went out into the open to pick up the man. Unfortunately the Germans did not at first realize his object and fired, wounding the officer in several places. As soon as they saw what his object was, however, they also ordered the "Cease fire." Thereupon the British officer staggered to the fallen man, and carried him to the German lines. A German officer received him with a salute, and, calling for cheers, pinned upon the breast of the British hero an iron cross. Then the Britisher returned to his own trenches. He was recommended for the Victoria cross for his notable example of chivalry, but succumbed to his wounds.

## CURRENT WIT and HUMOR

### HE WAS STRICTLY NEUTRAL

Diner Orders Conglomeration of Dishes to Comply With President Wilson's Late Request.

Two homeless New Yorkers were taking their Sunday dinner at a restaurant. They were friends, but each was concealing from the other the fact that he had no other place to go.

The first man to arrive had ordered his dinner and when the second man joined him the waiter was serving it. The layout consisted of roast turkey, German fried potatoes, Vienna schnitzel, French rolls, Brussels sprouts, English muffins, Hungarian goulash and Russian caviare.

"Good Lord, man," gasped the late arrival, "what's that crazy conglomeration you have ordered?"

"Oh, that's all right," replied the other thankfully. "You know President Wilson has asked all good Americans to preserve strict neutrality. I'm a good American and this is a neutrality dinner. See?"

### Comical Reasoning.

"Get off from this place and stay off!" roared the colonel. "Confound you, I won't have a worthless scoundrel around who steals everything he can lay his hands on!"

"Well, uh, law suzz, sah!" returned Brother Bogus. "Dat's funny! A pusion would 'magine, cunnel, dat 't would be a comfort to yo' to have dat sawtuh nigger round handy, uhkaze when anything was mislin' yo'd know right whuh 'twuz at. Yo' does reason might ty comical, sah!"—Puck.

### Worried.

"I am worried about my boy."

"He looks all right to me."

"I know, but I have never found a dead mouse or an apple core or a snake in his pocket in my life."

"Well, why in the world should you?"

"I've always read that a normal boy always—"

"Never, except in the funny papers. What you need is a more serious line of reading."

### Somewhat Caustic.

"This is the greatest town in the world," said the proud citizen. "It's so healthy here that people never die. They simply dry up and blow away."

"Umph!" replied the saturnine stranger. "Some people about here evidently blow away at such a great rate that they don't know what it means to dry up."

### TRUE.

The Comedian—It certainly does bore one to death.

The Soubrette—What does?

The Comedian—A mad bull.

### Not All Dark.

"There is a bright side to war."

"I can't believe it."

"Oh, yes. There is nothing doing at the Rat Mort, the Moulin Rouge is deserted and since there are no American tourists in Paris to cater to, its 'made-to-order' wickedness has taken a slump."

### Playing Safe.

Shortleigh—Have you sufficient confidence in me to lend me a dollar?

DeLong—Sure! And I'm going to keep my confidence in you—along with the dollar.

### Steady Occupation.

"A woman has to give up a great deal after she gets married," sighed Mrs. Gabb.

"A man does nothing else but give up after he gets married," replied Mr. Gabb.

### Matter of Sex.

Newpop—Our baby is only nine months old and can talk.

Singleton—Then I was misinformed. Someone told me it was a boy baby.

## VICE-PRES. MARSHALL AT THE EXPOSITION Makes First Official Visit and is Entertained.

San Francisco, March 24.—Vice-President Marshall, representing President Wilson, made Monday his first official visit to the Panama-Pacific exposition, where he was received by the national exposition commission. He greeted foreign exposition officials and then made a formal call on Admiral Thomas B. Howard, commander of the Pacific fleet, whose flagship, the cruiser Colorado, is anchored off the exposition grounds. Last night he was the guest of honor at a dinner given in the California building by the woman's board of the exposition.

At a luncheon tendered the foreign commissioners yesterday, the vice-president welcomed the world to the exposition. In the course of his speech he voiced sentiments of friendship and sympathy for the war-torn countries of Europe. Admiral Baron Uriu of the Japanese exposition responded.

### How a Small Boy Makes Love.

In the April American Magazine, Elia Parker Butler writes another small boy story in his new series. This month's story is entitled "Teacher's Pet," and in the following extract the small boy talks about his girl:

"Her name is Milly. I haven't said anything about marrying her yet—not to her or anybody—but I've carried her books three or four times and I hit her in the back of the head with a soft snowball, and I guess she likes me too. She threw a snowball back at me when I hit her and then, when I washed her face for her with snow, she just said, 'Oh, George! You mean thing!' as if she might be willing to marry me sometime if I got nerve enough to ask her when we're grown up. I wonder how a fellow gets nerve to ask them. I don't think I'll ever have."

### Belgian Civilians Shot.

London, March 24.—Seventeen Belgians, most of whom were young peasants, were shot at daybreak Tuesday in the Ghent barracks, after having been found guilty by a German court martial of espionage in the interest of the allies, says a dispatch to the Exchange Telegraph company from Amsterdam.

One sure way to save money is not to own a flock of automobiles.

If a girl wants to do a little missionary work she might go into the kitchen and help mother.

In after years the candles on a woman's birthday cake fail to throw any light on her age.

A girl with a pair of natural rosy cheeks and a couple of dimples can get nearly any old thing she wants.

"Never look a gift horse in the mouth" may be good advice to the one man in a million who is fortunate enough to have a horse given him.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## Head Stopped Up? Can't Breathe? Try the Vick Vap-O-Rub Treatment

Applied in Salve Form Over Throat and Chest Relieves by Inhalation and Absorption.

Vapor treatments are best for inflammations of the air passages. The vapors carry the medication direct to the inflamed surfaces without disturbing the stomach, as internal medicines will do. A very convenient vapor treatment is a good application of Vick's "Vap-O-Rub" Salve over the throat and chest, covered with a warm

flannel cloth. The body heat releases vapors that are inhaled with every breath, opening the air passages, loosening the phlegm, and healing the raw surfaces. For deep chest colds, first apply hot wet towels to open the pores. Vick's is then absorbed through the skin, taking out that tightness and soreness. 25c, 50c, or \$1.00.

### Who Should Rule?

Outside of a very few inconsequential papers, apparently inspired from a common source, the Democratic press of Kentucky has announced for the calling of a platform convention prior to the August primary. The Frankfort Courier states that Chairman Vansant was in Frankfort a few days ago conferring with some of the political crowd there. Tim Cromwell quotes a supporter of one of the Democratic candidates for Governor as saying: "We have just completed another poll of the Democratic State Central Committee, and we find that twelve of the members of the committee, in addition to Chairman R. H. Vansant, are against a pre-primary convention."

We do not believe that this poll is in anywise accurate. In the first place only the members of the State Executive Committee will have a voice in the matter, and there are but eleven of them, excluding Chairman Vansant, who can only vote in case of a tie, and there cannot be a tie in odd numbers.

We believe that a platform convention will be called and that within a short time.—Bowling Green Messenger.

### Drowned In Turkish Waters.

Lieut. Com. William F. Bricker, of the United States converted yacht Scorpion, and three sailors named Ford, Dowell and Leverings, were drowned on the night of March 20, while attempting to reach their vessel with a row boat. The Scorpion was anchored in the Bosphorus off Constantinople.

## WHY A BOY DOESN'T LIKE

## TO BE TEACHER'S PET.

In the April American Magazine Ellis Parker Butler writes another boy's story in his new series. In the following extract he comments on teachers' pets:

"Any fellow gets mad if he is called 'teacher's pet,' even if he is teacher's pet. A fellow can't help his teacher liking him if she wants to, but he don't like to be called that. If a fellow is pretty bright and learns his lessons without killing himself over them, and don't get licked every day or so, he can't help it if his teacher lets him carry her notes; but when the other fellows yell 'teacher's pet' at him they mean he's trying to be her pet, and that makes him sore."

## McAdoo Taken Home.

Washington is manifesting keen interest and solicitude in the progress of Secretary of the Treasury William G. McAdoo, who was removed on a stretcher from Providence hospital, to his home on Massachusetts avenue, following a serious operation for appendicitis. While the secretary is said to be making progress his recovery is admittedly being somewhat retarded on account of the delay that ensued before the operation was performed. He is said to have held out against an operation until it was the only alternative. It will probably be several weeks before Mr. McAdoo can resume his duties at the treasury. He is allowed to receive no callers.

"Too Many Wives," one of their best productions, is the bill for tonight. This play was scheduled for Tuesday night, but the program was changed and the production of "Too Many Wives" was selected for Thursday night, as above mentioned.

The company will give a matinee Saturday afternoon at 2:30 o'clock, presenting "Tempest and Sunshine." Matinee prices will be 10c and 20c. New specialties are introduced between each act, making the performance almost a continuous one, and every minute an intensely interesting one.

## A Real Union Church.

Four churches at Barnett, Mo., the Baptist, Christian, Presbyterian and Methodist, all weak bodies with about 50 members each, holding monthly meetings, have united into one body known as the Federated Church, each of the four branches having a member on a board of control. The minister is to be selected who will be expected to understand the church situation and preach only the fundamentals of Christianity and unity of purpose in spreading the gospel. The coalition was worked up by Rev. C. R. Green, of Harmony, Mo.

## PURELY PERSONAL

Miss Lucy Wilson has resigned her place as stenographer at the H. B. M. A. to accept a position in Cadiz. Miss Anita Brackrogge has accepted the position of stenographer for the H. B. M. A.

## Murderer Confesses.

The mystery surrounding the murder in Terre Haute of Mrs. Mary Balding and three of her children was cleared up by the confession of Verne Alphonse Lewis that he was guilty.

## Dog-Cat.

Rose High Cat and Harry Poor Dog, Sioux Indians, were married last week in North Dakota. The groom, we take it, can now drop his given name.—Times.

## Ready Excuse.

Stanley had contracted the habit of using bad language, and his mother was conducting an earnest campaign against this fault. "Stanley," she remarked, hearing an impatient ejaculation follow a misdirected blow with the hammer, "what have I told you about swearing?" "I wasn't swearing," the boy defended himself. "Truly, I wasn't, mamma. All I said was, 'O Lord!' and that isn't a swear; it's a prayer!" The minister says it in church.

## EXPLANATION IN ORDER.

"You say all the regulations of the church are for peace and quiet."  
"Certainly."

"Then how about its canon laws?"

## ITS NATURE.

"There is one thing I've discovered about this investigation fever."  
"What is it?"

"It's the spotted fever."

## THE KIND.

"Can I get credit on this stock of clocked stockings?"  
"Well, naturally, we sell them on time."

## NATURALLY.

"So there was much popular interest taken in that whisky case?"  
"I should say! The public just drank it in."

## FLOCK OF OWLS

## Last Week For Getting In At Reduced Rate.

The order of Owls is fast forging to the front as the leading order of the city numerically. They have had on for two weeks a contest under a dispensation at a reduced rate and the time expires next Tuesday night. In the past ten days the membership has been increased by over 50 new members. After next Tuesday night the regular rate for initiation will be restored. So all wanting to avail themselves of the chance, should decide at once.

## DESERVED TRIBUTE.

With the death of Bertram Dobell we lose a man who had rendered a great service to literature, says the Westminster Gazette. To the limited public which was interested in old books and the byways of literature he was known as a bookseller, and one of the most successful of his time. To the greater literary public he was known as a pleasant poet and prose writer and the discoverer and publisher of the work of several poets of the past. Chief of these was Thomas Traherne, whose manuscripts came into Dobell's hands. With great industry he traced the authorship and then gave the book to the world. He did a similar service for William Strode, another forgotten poet.

## A NICE DISCRIMINATION.

"I dare say women get better results by studying the fashion plates than they do by studying each other's clothes."

"Why so?"  
"Well, there's a certain amount of animosity aroused when one woman sees another woman well dressed and this feeling is apt to blind her to some of the fine points of the other's attire."

## LEGAL AMENITIES.

Judge—No two of the witnesses tell the same story.

Lawyer—I arranged it that way, your honor. I didn't want the trial to be too monotonous for you.

## EASILY FIXED.

She—The man I marry must have a fortune equal to mine.  
He—Well, make over half of yours to me.—Detroit Free Press

## MAJORITY RULE.

"I never like to drink from a public cup."  
"Go ahead, stranger, it's all right. Everybody uses it."—Life.

## ITS CLASS.

"How would you classify this systematized church-choir work?"  
"Why not rank it with organized labor?"

## To Send Money For Sisal.

An American warship will take \$625,000 to Mexico to finance the sisal crop awaiting shipment at Progreso. The sisal is needed to make binding twine for the coming wheat crop.

## MACHINE KEEPS GIRL ALIVE

## UNDER WATER FOR HOUR.

"During the recent Safety and Sanitation Exposition at New York, a young woman was kept alive under water for one hour and ten minutes by means of a resuscitating machine such as is used by the government in mine-rescue work," says the April Popular Mechanics Magazine, in an illustrated article. "The test was performed for the purpose of illustrating the efficiency of mechanical respiration and was conducted under the direction of a former surgeon of the United States Bureau of Mines. The breathing mask, which has a double rubber tube extending to a hand-operated lung apparatus, was strapped over the girl's nose and mouth, and she was then placed in a large glass-front tank. Throughout the period she was submerged she did no breathing of her own accord."

Superstitious people are always disappointed if it doesn't happen.

Many a man gets into trouble by trying to settle other people's troubles.

Even a multi-millionaire can have his vermiform appendix removed but once.

A girl's easiest way to catch a man is by pretending to run away from him.

## SAFEST PLACE FOR SOLDIER IN AN AEROPLANE.

Is an aeroplane the safest place for a soldier in war?

The English newspapers recently reported that an officer of the Royal Flying Corps had applied to be allowed to join his regiment in his former capacity. When inquiry was made as to his reasons he replied that he could no longer see his brother officers running all the risks of the trenches while he himself was in safety flitting in the air above them. Similar remarks by other British military aviators, all of whom seem to regard their work as much less hazardous than that of the fighting man on the ground, have lent interest to reports of the surprisingly small number of casualties suffered by fliers since the war began. —From the April Popular Mechanics Magazine.

## A TEXAS WONDER

THE Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. ## OLD WATCH TICKED FOREVER

Aged Brooklyn Spinster Kills Herself Dressed in the Attire of Years Ago.

Miss Olive Robbins, eighty years old, member of an old Brooklyn family, ended her life with gas. The setting with which she surrounded her act had a touch of beauty in it despite the presence of death. She had attired herself with scrupulous care in a dress of the pattern of thirty years ago. In her hand she held an old-time silver watch. It was still running. Like "The Old Clock on the Stairs," it had ticked for her the message of "forever."

The old spinster lived alone. She had outlived all her friends. This age of haste and progress was strange to her. She had never married. Her only living relative was a brother. She carefully arranged all her affairs before taking her life. Various old letters and heirlooms were placed on the table beside her. She left a note for her brother and another for her pastor. She had been a member of one church for sixty years. Most of her life was dedicated to the work of doing for others. The letter to the pastor said she was tired of life and that death was tardy.

### LEAVES HOME TO CATS.

The old Wharton residence at Wyomissing, near Reading, Pa., will become a home and hospital for the pet cats owned by Miss Susan Wharton Wharton, who died there last week.

Miss Wharton's will provides that the home she occupied shall be maintained for the pet cats until they have all passed away. It disposes of an estate valued at \$50,000.

Miss Wharton was a great-grandchild of the first governor of Pennsylvania.

### Origin of Automobile.

The word automobile comes from two words; one Greek and the other Latin. The two words are auto and mobile. The former is derived from the Greek autos, meaning self, and the latter from the Latin mobilis, adverb, movable. This is originally derived from the Latin verb, moveo, movere, movi, motus, meaning to move. We are unable to say who first suggested the name for self-propelled vehicles.

### Health Promotes Happiness.

Without health, genuine joy is impossible; without good digestion and regular bowel movement you cannot have health. Why neglect keeping bowels open and risk being sick and ailing? You don't have to. Take one small Dr. King's New Life Pill at night, in the morning you will have a full, free bowel movement and feel much better. Helps your appetite and digestion. Try one tonight.—Advertisement.

### Right at Home There.

The visitor to the Links at Hayseed-on-the-Mud had had the oldest caddy in the district allotted to him as his beast of burden. "Well," said the visitor, "as you have been living in the neighborhood so many years, I suppose you know all the ins and outs of this place?" "Oh, yes, sir—at least I am quite familiar with the links," replied the caddy.

### Bad Practice Discouraged.

Getting married in Burma is not entirely a pleasant operation. Custom warrants the practice of throwing stones at the house of the newly-wedded, but not blackmail, and when recently a band of Burman youth demanded money before they would depart the law stepped in and sentenced the leaders to heavy imprisonment and corporal punishment.

## FORCE THAT DID THE WORK

Wasn't Exactly Smithson's Own, but He at Least Found It Effective.

Little Smithson was a meek, nervous-looking five feet of humanity. His manner suggested the probability of his heart breaking were he at any time compelled to kill a fly, even though it were in self-defense.

When, therefore, a burglar paid him a visit one night, he was a bit scared. The nocturnal visitor having been captured, Smithson had to give evidence at the trial. The prisoner's counsel, a big, bullying sort of attorney, evidently thought he had got an easy job on when the little man entered the witness box.

Having described the events prior to the burglar's capture, Smithson said:

"Of course I got him all right, but I had to use considerable force before he gave in."

"Oh, indeed," replied the lawyer, with a skeptical smile, as he looked the little man up and down. "And what force was it you used?"—evidently scouting the idea that it was of the physical variety.

"Oh," replied Smithson, with a bland smile, "it was the police force."

### Are You Rheumatic?—

Try Sloan's.

If you want quick and real relief from Rheumatism, do what so many thousand other people are doing—wherever an attack comes on, bathe the sore muscle or joint with Sloan's Liniment. No need to rub it in—just apply the Liniment to the surface. It is wonderfully penetrating. It goes right to the seat of trouble and draws the pain almost immediately. Get a bottle of Sloan's Liniment for 25c. of any druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. You give a most instant relief. ### Costly Animal Pests.

Australia is cursed with certain pests, such as rabbits, wild dogs, kangaroos and blowflies. Large sums of money are spent in an endeavor to lessen the number of rabbits. It is estimated that in Victoria alone 150,000,000 were put to death in 1913. It is generally admitted that ten rabbits eat as much as one sheep, and many graziers have long since realized that they cannot profitably run sheep on properties infested with rabbits. Natural enemies, such as foxes and wild dogs, which are troublesome in certain districts, tend to keep the rabbits in check, assisted by the wire netting fences that landholders are erecting. Kangaroos have caused considerable damage in the northwest part of Western Australia, where ranch owners are said to have paid for thousands of scalps.—From Report of United States Consul Magelssen at Melbourne.

## No Use to Try to Wear Out Your Cold It Will Wear You Out Instead.

Thousands keep on suffering Coughs and Colds through neglect and delay. Why make yourself an easy prey to serious ailments and epidemics as the result of a neglected Cold? Coughs and Colds sap your strength and vitality unless checked in the early stages. Dr. King's New Discovery is what you need—the first dose helps. Your head clears up, you breathe freely and you feel so much better. Buy a bottle to-day, and start taking at once. Advertisement.

### Peculiar Belief in Holland.

There are myths told in Holland that some time their entire land will be raised above the level of the sea and the dikes will then be nothing but a memory. Prior to 1713 the land was higher than it now is. At one time the Zuider Zee, the great inland gulf of Holland, sank. The Zuider Zee was covered formerly with a great forest. The trees are still to be found on the floor of the Zuider Zee just as they were hundreds of years ago. The legends tell that a promise was made that the sea would restore the Zuider Zee to the land again.

## Children Cry FOR FLETCHER'S CASTORIA

### Brought Home.

A party of tourists were going through a small town, having the time of their lives, laughing and joking. One of them thought she would have some fun, and called to a little girl standing near, "Are there any shows in town?" To which the little girl answered, "Only the one you people are suffering from—colds and coughs."

## How To Buy A Piano

After you have made a thorough investigation of the different methods of selling pianos just figure what you can save if you buy direct from the factory. Remember, a retailer has large expenses in selling a piano, besides his profit. You can save all of this at our factory.

We make our fine pianos as are manufactured anywhere, and we sell direct to the homes. We never sell through dealers or agents, but we will give their profits to you.

The Adler Piano received the highest award at the National Conservation Exposition at Knoxville in 1913. You can try an Adler Piano in your home free. You can put it to any test and make any comparison you desire. You do not obligate yourself to purchase. Ship it back at my expense if you are not more than satisfied to keep it.

My plan of selling direct from the factory saves you 25% to 50%. If it is not convenient to pay cash, you can use my strictly confidential "Charge Account Plan" whereby you can pay in small amounts to suit you, and without interest.

Send No Money In Advance

Send today for free catalog showing you pictures and prices of Adler Pianos. Select the style you would like to try, and it will be sent to you free.

No matter whether you are thinking of buying an instrument now or some time in the future, you will want this handsome catalog as a guide to know all about the features, equipment and most liberal piano buying proposition you ever heard of. Every piano guaranteed for 25 years against any fault in material or workmanship. A postal today will bring my style book and selling plan.

### SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

**Paxtine**

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ill it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At drugists, 50c large box or by mail.

## DAIRY FACTS

### THICK CREAM GAINS FAVOR

Colorado State Dairy Inspector Answers One of Most Common Questions Bothering Dairymen.

(By R. McCANN, State Dairy Inspector, Colorado Agricultural College.)

One of the most common questions arising among cream producers and handlers of cream is that of how thick cream should be skimmed, when the same is to be used in butter-making.

Cream skimmed so as to test between 35 per cent and 40 per cent is of the most desirable thickness. Thick cream keeps better than thin cream, there is also not the waste in handling a smaller bulk of cream than there is of larger amounts in the way of hauling and express charges, moreover the skim milk is kept on the farm for feeding calves and pigs. If it is too thick, there is a loss in some of the cream going over into the skim milk and also a considerable waste from the amount of cream that will adhere to cans and utensils.

A uniform richness of cream may be obtained at each separation.

1. By using the same amount of waste or skim milk when flushing the bowl.

2. By keeping the cream screw the same.

3. By running the separator at the same and at a uniform speed.

4. By having the temperature of the milk the same each time.

5. By keeping a uniform inflow to the bowl.

6. By washing the separator thoroughly after using.

Exactly the same butterfat test cannot be expected every time from the observation of the above, as there are other factors entering affecting results, but a close following of the six named checks on variation will work wonders toward getting a uniform thickness of cream throughout the season.

### PREVENT COW FROM KICKING

Device Arranged Around Hind Quarters Acts as Simple Means of Educating Animal to Be Good.

With this new arrangement hooked up to her hind quarters, "bossy" will kick nobody but herself when she undertakes to show her resentment by a rear thrust at the milk pail or the dairy maid. After a few experiences with a kick which rebounds every time on herself, she soon becomes cured of the kicking habit. A

### Reflex Kicking Strap for the Cow.

Kicking cow is an aggravation about the dairy and the device referred to has been recently patented and is a simple means of educating her to be good. It will be quickly seen how the device is applied to the hind leg of the bovine and also how any pressure exerted upon the device, as in an effort to kick, the energy thus expended will give her a sharp reminder that she is not to have it all her own way.

### BEST FEEDING FOR PROTEIN

Necessity for Giving More Than One Grain—Wheat Bran, Corn and Stover Make Good Ration.

Dairymen who are on a short allowance in the matter of grain naturally wish, to keep down the expense bill, and make the mistake of feeding one grain only. For example, a correspondent asks which would give him the best results, corn or wheat bran, when, as a matter of fact, he should feed both to get anywhere near a balanced ration, and they should be fed in the proportion of one part of the wheat bran to six parts of the corn. This, with corn stover as roughage and with an occasional feed of oil meal or a change to some of the concentrated feeds like gluten meal, will supply a fairly balanced ration and not a costly one. Those who have to do with farm affairs are coming more and more to figure out these problems instead of guessing at what they should do or working on the same plans they followed years ago, when conditions were, perhaps, much different. This is going in the

## MEN IN MIND IN HOPKINSVILLE

People of Prominence In The Pearl City of The Penny-royal.

BIOGRAPHICAL SKETCH NO. 75.

Guess Whose Picture Is Peeping Out At You From This Column Today.

Oh! here he is at last. Not an intelligent student of affairs in Hopkinsville will fail to recognize the features portrayed in the picture that embellishes this historical narrative. To admit that you do not know Champ is to advertise your own ignorance.

Some great men have had different cities contend for the glory of their nativity. Not so with Champ. Hopkinsville possesses the undisputed honor of being his birthplace.

G. H. CHAMPLIN.

The momentous event transpired July 20, 1863, a few weeks after one of the decisive battles of the world was fought, in which the Lost Cause reached high tide on the bloody field of Gettysburg and rolled back across Mason and Dixon's line forever. Born with the country shaken by the booming guns of rival armies, surrounded by the tread of marching hosts, the rattle of musketry, the groans of dying men, Champ looked on the serious side of life from the time when he appeared in the school room one morning and demanded an education. But let us go back a little.

Green Henry Champlin was the only son of one of Hopkinsville's distinguished lawyers of 50 years ago, Judge G. A. Champlin. He was ten years old when the late Maj. J. O. Ferrell opened his famous military high school in the city and as soon as he was large enough—or rather old enough for he was large enough at a very early age—he matriculated with the Major and in the succeeding years was guided by him through many a flowery pathway of knowledge. He emerged from the school room with a naturally vigorous mind well stored with every kind of learning, from keeping his head up in ranks to finding the hypotenuse of a right angle triangle. Among other things he learned was the art of keeping books and he has kept books for nearly 30 years with such success that he stands without a rival in town as an expert book-keeper.

One day not long after he quit school, he observed a hog tearing up the ground with his nose and occasionally cracking in his teeth an acorn that he dug up. Upon inquiry he learned that it was a habit of hogs depending upon their own resources to root for food and that in some cases it was a case of "Root hog or die." Now Champ was not a hog by any means, but he concluded that if a hog could work for a living he could do the same thing and so he asked for a job and got it. From that day to this he has never asked for another. Jobs have hunted him and formed a waiting list to get a chance at him.

His first job was as shipping clerk in the tobacco warehouse of Abernathy & Co. In 1886 he transferred his services to the warehouse of Hancock, Fraser & Ragsdale and practically ever since his round face has beamed like a full moon in the pay window of this house and its successors, the present firm being R. E. Cooper & Co. For a few years he was with the brokers, E. M. Flack & Co., but in 1900 returned to his old office desk and is rounding out his fifteenth year without slipping a cog, except when out on business or festivities connected with the numerous lodges in which he has become a shining light. When it comes to lodges, Champ is the champion jiner of Western Kentucky. He belongs to the Knights of Pythias, Masons, Odd Fellows, Elks, Woodmen, Royal

Protective Association, the Bald Headed Club and the Presbyterian church. This may not be all of them, but it is enough to give an idea of Champ's fondness for fraternal and benevolent societies. He is a Past Noble Grand, Past Chancellor, Past Exalted Ruler, Past Regent and has made other passes too numerous to mention in a busy town like this. He has held many other offices and has been the recipient of many honors. On one occasion he was presented with a silver hammer by the K. of P. lodge. He was one of the organizers of the Hopkinsville Bald Headed Club and when elected president refused to vacate and holds the office yet, although it had been the custom to elect a new president every year.

Champ has made three races for councilman. Twice he failed to get enough votes. The last time he had enough votes, but there was no seat large enough for him.

He has bumped around in so many lodges and has attended so many functions where nothing but oratory would do, that he has become a fluent speaker. He can't orate as loud as Claude Clark, as long as John Bible, or as often as Bill Howell, but when the right button is touched he is there with the goods.

You have to know Champ to appreciate his worth. He won't let you talk to him while he is busy, but after his day's work is over he has been known to stand on the street corner and talk to Upshur Woodriddle, Alex. Overshiner, Irving Roseborough, Bill Hancock or other congenial spirits. If you are a stranger and want to see him, drop into most any lodge in town some night. The big fat fellow who seconds all the motions is Champ.

## WRITERS IN BRITISH ARMY

"All Sorts and Conditions of Men" Seem to Be Gathering Under Lord Kitchener.

The new army is the most interesting army there has been in England since the days of Oliver Cromwell, in the sense that it is drawn from all ranks and interests in the country. Men who have won distinction in the world of books are not lacking. A body that is well represented is the group of young historians and writers who are associated with the Workers' Educational association and the modern democratic movement. Thus all three of the authors of that valuable book, "Economic Documents," published by Messrs. Bell, are now soldiers. Mr. Tawney, who was one of the leaders of the Workers' Educational movement, and is chiefly known for a book on the sixteenth-century inclosures (which is likely to become a standard work on the subject), is a private in one of the new battalions which are being raised in Manchester. Mr. P. A. Brown enlisted in the Durham light infantry, and is now an officer in that regiment, while Mr. Bland is in training in the Officers' Training corps. Mr. Kenneth Bell, who is also one of the leading spirits in that movement, is an officer in the Territorial artillery, and Mr. Keeling, formerly in the board of trade, author of a valuable monograph on child labor, is now a noncommissioned officer.—The Nation.

## WHY THE J. I. Case Transplanter WILL SAVE TIME LABOR PLANTS FOR YOU

Three men or boys can set in a day many more plants than can be set by hand, and do the work better and with less fatigue. That saves time and labor.

Not only that, but they can set plants in dry weather and in the heat of the day, whereas, under the old method, the work could be done only in the early morning or late evening. That saves time.

Of course, the largest saving is in the increased percentage of plants which grow when planted with a J. I. Case Transplanter. That saves plants. Sold by

## The April American Magazine

In the April American Magazine Cleveland Moffett tells the story of a wonderful new invention which, it is believed, will prevent collisions at sea and render the deadly submarine practically useless so far as injuring an enemy's ship is concerned.

In the same issue Ring W. Lardner, the famous baseball writer, author of "The Letters of a Busher," picks an all-American baseball team. He takes his men from the two major leagues and describes them humorously, yet pointedly. Ida M. Tarbell, continuing her new business series, "The Golden Rule in Business," contributes an article on "The Hours of Labor." By the use of interesting stories taken from actual businesses, she makes out a convincing case for a reasonably short day, showing how excessive hours of labor produce no advantage for employers or employees.

Conspicuous among the short stories in this issue is a political story entitled, "The Lame Duck," written by Brand Whitlock, former mayor of Toledo, and present minister to Belgium. Other fiction of special interest and power is contributed by David Grayson, Ellis Parker Butler, Louis Graves and William MacLeod Raine.

As usual, this magazine includes excellent specimens of humorous writing. This month George Fitch, the famous Illinois funny man, writes another Homeburg sketch of life in a small town. The title of his piece is "Homeburg's Leisure Class." James Montgomery Flagg, the celebrated New York wit and artist, does an amusing piece in words and pictures, satirizing visiting and visitors.

The two departments—Interesting People and The Theater—complete an unusually original and entertaining number.

## More Damaging Testimony.

John F. Nugent, assistant chief of police of Terre Haute, testified that at the instance of Mayor Donn M. Roberts, who is on trial with twenty-seven others at Indianapolis for alleged conspiracy to corrupt the Federal elections, he had collected a "slush fund" of \$6,000 from saloon-keepers and gambling house propri-

## Iowa Boy's Record.

The year 1914 was one of remarkable records in the boys' and girls' clubs in all the states. Not only did the clubs branch out and take up new lines of work, but the boy champions of other years continued to show improvement in their methods and yields. A case in point is that of Earl Zeller, of Greene County, Iowa. In 1912 this boy grew 141 bushels of corn on his acre at a cost of \$13.67, making a net profit of \$83.42. He won the state championship of Iowa. In 1913 he grew 123 bushels at a cost of \$11.02 and made a net profit of \$159.58. He ranked second in the state. In 1914 he raised 139 bushels of corn at a cost of \$12.15. Of this he sold 30 bushels for seed and his total crop for \$209.95, giving him a net profit of \$197.80. During three years this boy has grown 403 bushels of corn, or an average of 134½ bushels, at a cost of \$36.84—an average cost of 9c a bushel—and has made a net profit of \$440.80 on the three crops off his single acre of land.

## Thinking Charity.

If we could realize that, supposing we were all created alike and subject to the same circumstances, we should all make the same mistakes and blunders, our judgment of others would be different. There is no phase of charity so beautiful as thinking charity. If you give all you have to the poor, or show your charity in any other way, it availeth nothing so long as you think unkindly and unjustly. Charity hurts no one by word or deed.—J. N. Street.

The North sea, covering an area of 221,000 square miles, has its greatest depth of 2,000 feet near the Skaggerak.

## Two New States.

(Boston Globe.)

Nearly a century elapsed after the death of Washington before his name was given to a state of the Union, and thus honored.

Noteworthy, therefore are three simultaneous movements now in progress.

In the Legislature at Austin a joint resolution has been introduced providing for submitting to popular vote a bill creating a new state of the western part of Texas to be called Jefferson.

In the far Northwest petitions asking that certain eastern counties of Washington and the Panhandle section of Idaho shall become the state of Lincoln, have been signed and will be sent to Congress, since, in this case, the change requires Congressional sanction.

California below the Tehachapi had 64,000 inhabitants three decades and a half ago. Now the census discloses almost 1,000,000. The people are "Easterners" mainly. Because they supported prohibition, which failed, and a blue sky law, the old California of Bret Harte talks of dividing the state.

So there, too, is a possible chance of honoring yet another President in the list of 27 Presidents at a christening.
